aBSolutELY FEnCing

After a 10 year hiatus, Absolutely Fencing is back! I moved back into this great community recently, built some fences for old and new clients (as I kept on getting asked) , and said too myself 'I still enjoy doing this'.

With 24 years experience of all boundary fences- Hardwood paling, corrugated iron etc, front feature fences - woven wire, picket, ripple iron etc, and rural fencing - post and and rail, rabbit netting etc.

I am very fussy, it not only has to look good, but last for a long time.

Heritage and front feature fences are my favourite to build,as they require the most craft, and are the most satisfying,however a lot of our builds are still boundary fences such as hardwood palings etc.
